Fact Book

Prepared by: Tara Panter Pearson
Department of Institutional Research and Planning
Carrollton, GA 30118
770-836-6449

March 30, 2001

Dear Colleagues:

On a personal note, I am glad to be back on campus, after a year of serving in an interim capacity as Senior Vice Chancellor for the University System of Georgia. I want to thank Tim Hynes for serving as Acting President last year.

This has been a great year for us. We started with a record enrollment of 8,966 students, our highest ever.

For two out of the past three years, West Georgia Honors students have made history for the University. More UWG student research proposals were chosen for presentation at the National Collegiate Honors Council meeting in 1999 and 2001 than from **any other college or university in the nation.**

For the second consecutive year, UWG students were the Cross Examination Debate Association **National Champions**

The College of Education received a \$1.2 million grant from the U.S. Department of Education for Preparing Tomorrow's Teachers to Use Technology. The funding, the largest three-year grant in UWG's history, builds on the \$173,882 award to the college obtained through the Improving America's Schools Act of 1994.

For the second year in a row, a West Georgia student was awarded a prestigious Goldwater Scholarship, the premier undergraduate award designed to encourage outstanding students to pursue careers in the fields of mathematics, the natural sciences and engineering. Recipient Yong Suh, who came to UWG when he was 16 years old as a student in the Advanced Academy of Georgia, is ready to graduate from West Georgia at the young age of 20 and head off to the University of Rochester School of Medicine and Dentistry to attend its M.D./Ph.D. program. But before he leaves for Rochester, Suh will spend one year working in the lab of Dr. Francis Collins, Director of the Human Genome Project, at the National Institutes of Health in Bethesda, Maryland. He is one of only four undergraduates across the nation selected for the project. Roger Huffstetler will have to choose between Harvard, Stanford, MIT, Cambridge (UK), UC-Berkeley, GA Tech, and several other excellent schools! Chris Lane has admission at UC-Berkeley, Stanford, Columbia, and Tech. Julie Lee has a three-year fellowship/scholarship to Mercer University Law School. And, the list goes on...

UWG sophomore Shea Cowart won two gold medals at the 2000 Paralympics in Sydney, Australia. Cowart, a bilateral amputee, set new world records in the 100- and 200-meter events.

Miss Georgia 2000 is UWG student Pam Kennedy, a marketing major from LaGrange. Her platform is "The Right Weight: Eating Disorder Awareness and Prevention."

The Technology-enhanced Learning Center, a \$19.5 million academic complex, opened for classes for fall semester 2000. Adamson Hall renovation is in the design phase. Next on the agenda is a \$26 million Health, Wellness and Lifelong Learning Center for West Georgia which is on the University System of Georgia's capital projects list.

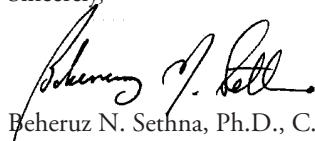

UWG is one of five University System of Georgia institutions to offer the WebMBA and to participate in Georgia GLOBE. Both programs are aimed at broadening access to higher education opportunities through the innovative use of information technology. In the Fall, UWG generated more Distance Learning credit hours than **any university in GA.**

The State University of West Georgia Foundation had a record year for 2000 with gifts and pledges for the annual drive totaling \$1,953,593, second only to 1997 when the Richards Foundation made a single gift of \$1.5 million.

The UWG football team tied for the Gulf South Conference championship and participated in the NCAA Division II South Regional playoff for the fourth time in the last six years. The men's basketball team won the Eastern Division of the Gulf South Conference for the sixth time in the last eight years. The women's cross country team won the NCAA Division II South Regional. The 2000-01 West Georgia Braves Cheerleaders placed third in the national UCA Collegiate Cheerleading Championships.

We initiated a university-wide comprehensive planning process this year – I challenged the faculty and staff to help us select **five areas of excellence** in which we can aspire to be recognized as being in **the top five percent of the nation in five years.** They have done so – read about these areas in the Fact Book.

Sincerely,

Beheruz N. Sethna, Ph.D., C.C.P., Professor and President

The University

The University

History

The State University of West Georgia, a senior unit of the University System of Georgia, is a co-educational, residential, liberal arts institution located in Carrollton, Georgia.

Carrollton, about an hour's drive from Atlanta, is the seat of Carroll County and one of Georgia's fastest growing industrial areas. Carrollton provides a regional population of approximately 100,000 with retail shopping, medical, educational and financial services, entertainment, and recreation.

The State University of West Georgia originated in 1906 as the Fourth District Agricultural and Mechanical School (A&M), one of twelve such institutions established by the State of Georgia between 1906 and 1917. In 1933, an act by the Board of Regents of the University System of Georgia established Carrollton's A&M School as West Georgia College. Dr. Irvine S. Ingram, principal of the A&M School became the College's first president.

In 1957, the institution was authorized to confer a Bachelor of Science degree in Education, making it a four-year senior college unit of the University System of Georgia. Now, majors in over fifty different fields provide students a wide range of options for their undergraduate degrees.

During the following years, West Georgia College became one of the fastest growing institutions of higher learning in the South. From an enrollment of 576 in 1957, the institution's student body now numbers close to 9,000. West Georgia offers 12 undergraduate degrees with majors in over 50 fields.

In 1967, the Board of Regents authorized the initiation of a Master's level graduate program. The institution currently offers eight Master's degrees in 36 areas of Study. The Specialist in Education degree is offered in nine areas of study.

In 1983, the Board of Regents approved the External Degree Program as a cooperative effort between Dalton College and West Georgia. Since its inception, close to 400 degrees conferred through the Center. The Board of Regents in 1988 approved opening the Newnan Center, a joint effort involving the Newnan-Coweta Chamber of Commerce and other business, civic and educational leaders in the area. With an enrollment of more than 200, the Newnan Center provides core curriculum and a possible degree in General Studies for residents in the Newnan-Coweta County area.

On June 12, 1996, in an historic decision, the Board of Regents of the University System of Georgia voted to change the name of West Georgia College to the State University of West Georgia.

In 1999, the Board of Regents approved the institution's first doctoral program in Education. Though the College of Education currently offers a cooperative doctoral program with the University of Georgia, the cooperative program will be phased out with the last group of students enrolled in Summer 1999.

To accommodate University growth, a multi-million dollar building program has increased the value of the University's physical facilities to nearly \$156 million. Beginning with three small buildings, the University has grown to include more than 80 structures for learning, living, and recreation on its 394-acre wooded campus.

The Campus

The campus is a unique blend of old and new. Covered with a variety of trees and flowers, the campus is dotted with structures of the early 1900s, as well as buildings exemplifying the most contemporary modes of architecture.

The front or "Old Campus" as it is sometimes called, a three-block-long expanse of rolling hills shaded by scores of old towering oak, elm, and maple trees surrounds a number of faded brick buildings stretching in a semi-circle adjacent to the park. This is where West Georgia began as an A&M School in 1906.

Beyond the old campus is a modern academic complex composed of library, social science, humanities, and math-physics buildings lies. A new business school annex was added in 1985.

Other buildings in the area include a three-story student center, a health and physical education center featuring a 3,000-seat gymnasium and indoor pool, and one of the most modern college infirmaries in the state. A performing arts center, containing two theatres, a black box and a main stage, which seat 250 and 500 respectively, was completed in 1989.

Much of the University's recent physical development occurred on the western side of the campus. The Education Center, a structure unique in the University System, contains five large lecture-demonstration rooms which, by moving sliding partitions, serves as a 1,000 seat auditorium. It also features an instructional materials center, television and sound recording studios, audiovisual laboratory and dark room, counseling rooms, group observation rooms, study carrels, and other areas for independent study. A 41,914 square foot annex to the Education Center, offering space for the College of Education faculty offices, the Department of Nursing, and the campus Childhood Development Center, was completed in 1995.

Adjacent to the Education Center is the Biology-Chemistry Building, a facility with numerous laboratories, lecture halls, and the latest scientific equipment. Most recent built is an Archaeology Laboratory that will serve the Anthropology program at the University, and the resident State Archaeologist.

A complete renovation of the University's baseball complex was made possible by a gift from the E. Woodfin Cole family in Carrollton. The 20,000 square-foot, two-level Murphy Fieldhouse provides offices for all athletic personnel, a football locker room, Hall of Fame room, sports medicine area and meeting rooms.

Ten residence halls are located on the campus. Bowdon Hall, one of the newest, was named in honor of Bowdon College, a West Georgia predecessor.

Mission of the State University of West Georgia

The State University of West Georgia, a charter member of the University System of Georgia, is a selectively-focused, comprehensive institution providing undergraduate and graduate public higher education in arts and sciences, business, and education, primarily to the people of West Georgia.

The State University of West Georgia offers a range of disciplinary, interdisciplinary, and professional programs at the baccalaureate level. It is also a major provider of graduate education at the master's and educational specialist's levels; further, a cooperative doctoral program is offered on the West Georgia campus. In addition to being accredited as an institute of higher education, the University has earned national accreditation or recognition in most undergraduate and graduate fields of specialization.

The purpose of the State University of West Georgia is to provide opportunities for intellectual and personal development through quality teaching, scholarly inquiry, creative endeavor, and service for the public good. The University aspires to preeminence in providing educational excellence in a personal environment through an intellectually stimulating and supportive community for its students, faculty, and staff.

The State University of West Georgia is committed to the following areas of excellence:

- High-quality undergraduate and graduate programs in selected fields in the Arts and Sciences, in Business, and in Education, that are grounded in a strong liberal arts curriculum, and that
 - impart broad knowledge and foster critical understanding needed for intellectual growth, personal and social responsibility, cultural and global literacy and life-long learning;
 - emphasize disciplinary rigor; and
 - foster the development of effectiveness in communication, critical and independent thinking, problem solving, and the use of technology; a learning community dedicated to instructional excellence where close student-faculty interaction enhances both teaching and learning for a diverse and academically well-prepared student body.
- Educational opportunities for exceptional students through initiatives such as the development of an Honors College and, for extraordinary high school juniors and seniors, through The Advanced Academy of Georgia.
- Faculty research, scholarship, and creative endeavors which promote knowledge, enhance professional development, contribute to the quality of instruction, and provide significant opportunities for student involvement and field-based experience.
- A broad range of public service activities and proactive partnerships to promote more effective utilization of human and natural resources; to contribute to economic, social and technical development; and to enhance the quality of life within the University's scope of influence.
- Regional outreach through a collaborative network of

external degree centers, course offerings at off campus sites, and an extensive program of continuing education for personal and professional development.

- Student services which increase opportunities for academic success and personal development and enhance the climate of campus life.
- Affirmation of the equal dignity of each person by valuing cultural, ethnic, racial, and gender diversity in students, faculty, and staff.
- A collegial environment in the decision-making processes and supporting practices that embody the ideals of an open, democratic society.

These commitments culminate in educational experiences that foster the development of leaders and productive citizens who make a positive impact throughout an increasingly global society.

Vision Statement for the State University of West Georgia Year 2000 and Beyond

The State University of West Georgia will be a leader within the University System of Georgia in providing educational excellence in a personal environment.

The State University of West Georgia will seek to create for students from various backgrounds every possible avenue to intellectual achievement, personal development, and leadership potential without compromising academic excellence. The University will maintain close contact with all people of the region, be responsive to their needs while raising their aspirations, and generating a more highly educated populace. The State University of West Georgia will be recognized for excellence in teaching and learning, research, and public service in undergraduate, graduate, and continuing education. The University will be recognized as being fundamental to the educational, social, cultural, technological, and economic advancement of the region and state.

Specifically, the State University of West Georgia of West Georgia will be characterized by:

- Educational Excellence evidenced by outstanding educational experiences, national and regional recognition of selected programs, faculty who excel in their disciplines, superior staff support, and an increasingly capable student body. At West Georgia, teaching, research, and service will be intricately intertwined and supportive of each other.
- A Safe, Supportive Community committed to enhancing learning, through close contracts between students and faculty, small classes taught by senior faculty whenever possible and through dedicated staff who help provide a vibrant campus life.
- An Outstanding, Diverse Faculty and Staff who demonstrate effective communication and teaching skills; utilize new technologies and innovative strategies to enhance student learning; and exhibit the highest standards of intellectual achievement, research, and continuing growth.
- Educational Opportunities for a Wide Range of Academically-Prepares Students that include a strong

academic knowledge base for the development of leadership skills and life-long learning. The State University of West Georgia will help ensure its students' future success by developing the ability of individuals to access, interpret, analyze using current technology and make use of relevant facts, information, and knowledge to think critically, solve problems, work with, and communicate effectively with others.

- West Georgia will develop the whole individual so that as alumni they will continue to be contributing members of their families, institutions, communities, state, nation and world.
- Educational Opportunities for Exceptional Students: West Georgia will build a reputation for having an Honors College with a distinctive liberal arts curriculum and additional peaks of excellence in selected undergraduate and graduate majors and professional programs, with student involvement in faculty research, and themes that run across the curriculum, such as communication, leadership development, interdisciplinary studies, critical thinking, and problem solving.
- A Region-Wide Learning Community that Engages and Inspires Traditional and Non-Traditional Students to become educated persons with global and multi-cultural perspectives and advanced technological knowledge. The University will help develop both ethical principles and intellectual flexibility for the future and will celebrate and energize the human spirit through respecting and supporting individual differences in learning styles, identities, and personal/professional goals.
- Pro-active Partnerships with Public and Private Schools and Other Educational Institutions, Business, Industry, Government, and Cultural and Social Organizations in order to analyze, synthesize, evaluate, predict, and respond to changing state and regional needs, to support Georgia's educational, economic, and cultural development, and to ensure graduates' readiness for the present and future.
- A Unified, Clearly Focused, University with each part contributing to and understanding how every other part contributes to the mission of the University and to the larger society.

Strategic Planning

The Process

During the Fall 2000 semester the State University of West Georgia's President, Dr. Beheruz N. Sethna, created an ad hoc committee to undertake the first stage of West Georgia's strategic planning process. The committee was charged with taking an institutional perspective and was asked for:

“a reaffirmation of UWG's Mission, a study of our publics, an examination of how our programs and services are meeting the needs of the public, a study of UWG's comparative advantage in each of these areas, and an examination of UWG's goals and objectives for the next five years.”

The Strategic Planning Committee (SPC) consisted of:

- Eight faculty members drawn in proportion of college faculties
- One representative from each of UWG's four divisions
- One representative from Institutional Research and Planning (IRP)
- One UWG student representative from the Student Government Association and
- One member of business/community.

The SPC met each week for two to four hours to answer the following questions:

1. Where does UWG come from?
 - a. What factors have contributed to UWG's success?
 - b. What vision brought UWG this far?
2. What is UWG?
 - a. What is the business of UWG?
 - b. Who is UWG?
 - c. Who are UWG's competitors?
 - d. What statistics measure UWG's performance and health?
 - e. What are UWG's internal strengths and weaknesses?
 - f. What are the external opportunities and threats UWG must contend with?
3. Where is UWG going?
 - a. What vision will take UWG where it wants to go in the next five years?
 - b. What qualitative objectives will implement that vision?
 - c. What quantitative goals will let us judge our progress?
 - d. What will it take to succeed?
 - e. How does UWG make it happen?

The Strategic Planning Committee's plan for each of the “big three” questions was to:

- develop a first draft of a report
- receive responses to the first draft
- and to publish a second draft.

The University community was requested to:

1. Read and respond with reactions to each report, each with multiple drafts and iterations via SPC's web site, <http://www.westga.edu/~spc>.
2. To participate with intensive e-mail discussions
3. Attend open/public meetings held each month after each first draft was completed.
4. Volunteer to meet for small-group discussions

From the above questions the SPC developed the “Bread and Butter and Visionary Goals: The Three Fives” These goals are believed to be necessary for the University's success over the next five years. After interim and final reports were posted on the web and revised with University-wide input, the final reports were sent to the University President to study the SPC's recommendations. After review by the University President the report was submitted for consideration by the faculty senate.

Recommendations were approved unanimously by the faculty senate on December 15, 2000.

“Bread and Butter” Goals

The University’s “bread and butter” goals are those that UWG (faculty, staff, and students) must reach if UWG is to be an excellent comprehensive state university. UWG would survive if faculty and staff fail to meet them, but UWG would find it difficult to fulfill its mission.

These are the goals UWG believes are necessary for the University’s success over the next five years:

1. **Commitment to UWG’s mission and goals.** University and College administrators must agree on the University’s direction and goals, and must work together to achieve them.

2. **Enrollment management.** UWG must improve undergraduate and graduate recruitment and undergraduate retention while continuing to raise admission standards.

Recruitment:

- Improve the reputation of UWG among high school guidance counselors, teachers, and college-bound students. (See “Public Relations” below.)
- Develop focused recruitment plans aimed at qualified and diverse high school students.
- Build stronger ties and articulation agreements with the two-year colleges of the University System of Georgia (USG) and the technical colleges of the Department of Technical and Adult Education (DTAE).
- Develop focused recruitment plans for our graduate education programs.

Retention:

- Enhance the Freshman Center.
 - Consider expanding the Freshman Center’s role to encompass more than the freshman year, with an appropriate name change.
 - Give the Freshman Center a central physical presence on campus.
 - Develop more peer tutoring and mentoring programs.
 - Develop a comprehensive strategy for academic advising, perhaps in conjunction with the enhancement of the Freshman Center.
 - Develop student ties to UWG so students want to stay until the degree is earned rather than transfer to other USG institutions. (See “The University experience” and “Campus infrastructure” below.)
 - Increase undergraduate admissions standards each year as UWG has since 1997.
 - Increase scholarship support and counseling for students with emergency financial needs.
3. **Academic programs.** Academic excellence is the essential goal of the University. Academic programming must be shaped by the mission of the University.
- Use periodic program reviews to ensure that departments and programs are mission-driven.
 - Allocate resources for the improvement of existing programs and the development of new programs only in accordance with UWG’s mission as a comprehensive state university.

- Give high priority to obtaining and maintaining accreditation for every program for which a national accrediting agency exists.
 - Include faculty-directed student experiential learning, research, creative, or professional activities in academic programs whenever possible.
 - Ensure that the general education program offered in the core is coherent and rigorous, with learning outcomes that can be clearly and consistently communicated.
4. **Public relations.** Public relations must become a campus-wide focus. Too often, UWG’s image does not reflect who UWG is and what UWG does well. Inaccurate public perceptions of the University are a prime barrier to UWG’s continued progress.
- Launch a campus and statewide campaign to define and promote UWG as an excellent comprehensive state university, targeting the visionary goals defined in the strategic planning process.
 - Use campus resources, particularly mass communications students, faculty, and equipment, to maximize the effectiveness of Public Relations (PR) office activities.
 - Encourage faculty and staff members, administrators, and students to participate in Public Relations initiatives.
 - To increase participation in PR, form a subcommittee of the General University Matters committee of the Faculty Senate to take the lead on the Committee’s existing charge to recommend policy and procedures for public relations. The subcommittee should include representatives from the administration, staff, and student body in addition to its faculty members.
5. **The university experience.** Faculty and Staff must improve the quality of the university experience for both commuter and residential students if West Georgia is to fulfill its mission. To improve recruitment and retention, faculty and staff must change the sense of many students that UWG is just the place where they take classes.
- Give students a reason to stay at UWG on weekends.
 - Continue improving the programming and facilities of the University Center.
 - Tie commuter students into the life of the campus.
 - Explore ways to provide off-campus transportation to improve access to entertainment, shopping, and residences.
 - Continue to encourage cultural, ethnic, racial, and gender diversity in students, faculty, and staff, and to work to ensure that equal opportunities and resources are available to all.
 - Recognizing both the appeal of having an on-campus multipurpose stadium and the difficulty of fundraising, study the feasibility of building a multipurpose stadium.
6. **Student, faculty and staff morale.** UWG must continue to improve the positive campus climate at UWG and to enhance the morale of our students, faculty, and staff members.

- a. Develop policies that address student and faculty concerns about class size to ensure that UWG can offer each student educational excellence in a personal environment.
 - b. Develop clearer faculty workload, promotion, and tenure policies that are consistent with the University mission.
 - c. Review staff workload, promotion, and compensation policies.
 - d. Promote faculty governance through the Faculty Senate and its committees.
 - e. Develop procedures for assessing and improving campus services for students.
7. **External relations.** UWG must work to improve ties off-campus.
- a. Increase the engagement of alumni in recruitment, fundraising, and public relations.
 - b. Forge stronger and broader town/gown relations.
 - c. Emphasize regional service in our academic and extracurricular offerings.
 - d. Promote an understanding of cultural diversity within the region.
8. **Regional collaboration for economic and community development.** UWG must form partnerships with government agencies, businesses, and non-profit organizations that let UWG apply the resources of the University to the solution of our community's economic and social problems.
9. **Information technology.** UWG must employ appropriate information technology to enhance student and faculty learning, provide access to distance education resources, and conduct the administrative functions of the University.
10. **Campus infrastructure.** UWG must develop effective plans to maintain infrastructure necessary to deliver university services.
- a. Allocate adequate resources to building maintenance: mechanical systems, roofs, carpeting, paint, etc.
 - b. Develop a comprehensive strategy for requesting and scheduling maintenance.
 - c. Develop adequate budgets for computing and networking technology.
 - d. Treat replacement of computers and networking equipment as recurring budget items rather than as one-time capital expenditures.
 - e. Explore ways to improve student housing to compete effectively with UWG's peer institutions.
11. **Capital campaign.** UWG must raise money and expand sources of funding beyond the local community. State funding and current external fundraising activities like A-Day cannot meet UWG's needs for facilities. Therefore, in conjunction with UWG's new centenary date of 2006, hold a multi-million dollar capital campaign.

Visionary Goals: The "Three Fives"

The State University of West Georgia (UWG) will achieve national recognition as a leader among, and model for, state comprehensive universities in these five areas:

- faculty-directed student research and professional activities
- the Honors College and Advanced Academy; the First-Year Program
- technology across the curriculum and
- innovations in professional preparation.

The foundation for each of these goals is provided by one or more existing programs or activities that offer a starting point for our efforts. All the goals satisfy the criteria defined in the charge of the University Strategic Planning Committee:

- Enhance educational excellence in a personal environment
- Multidisciplinary, they are feasible and assessable and
- Funded or externally fundable.

Each goal also meets an additional criterion set by the committee: all will support the University's efforts to achieve its "bread and butter" goals, including recruitment and retention.

The "three fives" define for the University community areas in which UWG should work to achieve national recognition. It will be up to those who carry out the later phases of the strategic planning process to decide how individual units should participate in achieving the goals and, based on those decisions, how our progress towards reaching them can be assessed.

• Faculty-directed student research and professional activities.

Faculty-directed student research and professional activities complement classroom learning by providing opportunities for learning by doing and by reflection on doing. UWG can build on existing programs like the Celebration of Scholarship, Big Night, the debate program, the Concerto Competition, and the Sigma Xi research paper competition to become national leaders in this area.

The activities best suited for a particular student will depend on the discipline and the talents and interests of the student. Appropriate experiences may include theoretical or applied research in collaboration with a faculty member; creative work under the supervision of a faculty member; community service, co-op, and internship positions on or off campus related to the student's area of study, with faculty members providing the structure for reflection on the "real world" experience; and academic competition under faculty guidance, like debate tournaments and investment management contests.

Given this wide range of activities, each academic department at UWG can participate in the achievement of this goal. In addition, student research and professional activities can contribute to the success of the other visionary goals.

UWG's national standing, in this area, can be assessed by using such measures as:

1. Rates of participation in experiential learning activities.
2. Number of publications in undergraduate research journals, of juried exhibits and performances by students, and of adjudications.

3. Amount of external funding for student research.
4. Number of student presentations at academic and professional conferences.
5. Success in academic competition.

The home unit responsible for this goal would be a Center for Student Research and Professional Activity.

- **The Honors College and the Advanced Academy.**

The Honors College at UWG is one of fewer than fifty such colleges in the U.S., and has developed a strong foundation for future growth. The Advanced Academy is one of fewer than ten such programs in the nation.

The development of the Honors College and the Advanced Academy can work hand-in-hand with each of the five visionary goals by increasing the likelihood of success in each. By strengthening the Honors College and the Advanced Academy ties to other programs like international studies, the Honors College can contribute to the success of other programs while fashioning a unique niche for itself.

UWG's national standing, in this area, can be assessed by using such measures as:

1. Growth in enrollment in the Honors College and the Advanced Academy.
2. Admissions standards.
3. Breadth of Honors offerings.
4. Participation of Honors and Academy students in research and professional activities.
5. Admission of Honors graduates to graduate and professional study.

The home unit responsible for this goal would be the Honors College.

- **The First-Year Program.**

Building on the work of the Freshman Center, the First-Year Program would provide an integrated approach to the academic, social, and personal development of UWG's freshmen.

The First-Year Program would offer programs such as learning communities for groups of freshmen who would take classes together; peer mentors for learning communities; access to LIBR 1101 for all at-risk students; service-learning opportunities; and comprehensive academic advising.

UWG's national standing, in this area, can be assessed by using such measures as:

1. Listing in the University of Colorado's "College and University Service-Learning Programs" directory.
2. Staff presentations at the National Conference on the First-Year Experience and publication in the *Journal on the First-Year Experience*.
3. External funding for support of first-year programs. The home unit responsible for this goal would be the Freshman Center.

- **Technology across the curriculum.**

UWG should develop a comprehensive strategy for incorporating information technology into academic programs and student services. The University should:

- Develop high-tech minors and programs for students in the humanities, natural and social sciences, business, and education
- Ensure that every graduate is competent in the use of information technology in his or her discipline, and
- Become a leader in the innovative use of asynchronous learning environments to support both distance education and classroom instruction.

An institutional focus on technology across the curriculum could contribute to UWG's success in faculty-directed student research and professional activities and in regional economic and community development. It could also help provide distinctiveness for the programs of the Honors College.

UWG's national standing, in this area, can be assessed by using such measures as:

1. Inclusion in Yahoo! *Internet Life's* list of Top 100 Wired Colleges.
2. Listing in the Sloan ALN Consortium Catalog of On-Line Educational Programs.
3. Publications and presentations in asynchronous learning journals and presentations at asynchronous learning conferences.
4. Disciplinary recognition for the integration of information technology into academic programs, particularly in traditionally low-tech disciplines in the humanities and social sciences.

The home unit responsible for this goal would be an expanded Center for Teaching and Learning.

- **Innovations in professional preparation.**

Drawing on resources from the three Colleges, College of Arts and Sciences, College of Education, and Richards College of Business, UWG should become a national model for innovations in professional preparation grounded in the scholarship of teaching and learning.

This goal links two core elements of the historical mission of state universities like UWG: professional education and a commitment to excellence in teaching. To reach it, the challenge will be to infuse the systematic investigation of teaching and student learning into professional preparation.

Achieving this goal can help satisfy urgent state and national demands for innovation in teacher preparation while strengthening the professional and pre-professional programs offered by the three Colleges. Moreover, insights gained through the scholarly study of teaching and learning can be generated by and can contribute to the work of faculty members in any discipline. While the focus of the goal is on improving professional education at UWG, the benefits will accrue across the University.

Achieving this goal will require support by the University and the Colleges for the scholarship of teaching and learning in all disciplines and collaboration among the Colleges to promote innovation in professional preparation.

UWG's national standing, in this area, can be assessed by using such measures as:

1. Participation in the Teaching Academy Campus Program of the Carnegie Foundation for the Advancement of Teaching.
2. Recognition by scholarly and professional societies for work in professional preparation and the scholarship of teaching and learning.
3. External funding.
4. Improvement in acceptance rates to professional schools.
5. Improvement in passing rates on professional licensure and certification examinations.
6. Media coverage of our innovations in professional preparation. The home unit responsible for this goal would be a Center for Innovations in Professional Preparation.

Accreditation and Affiliations

The State University of West Georgia is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award bachelor's, master's, education specialist's, and education doctoral degrees. The University has maintained its accreditation from many discipline-based organizations, including:

- American Assembly of Collegiate Schools of Business
- American Association of Colleges for Teacher Education
- American Association of State Colleges and Universities
- American Chemical Society
- American Council on Education
- Conference of Southern Graduate Schools
- Consortium for Diversified Psychology Programs
- Georgia Association of Colleges
- Georgia Board of Nurses Examiners
- National Association for Foreign Student Affairs
- National Association for Schools of Arts and Design
- National Association of Schools of Music
- National Association of Schools of Public Affairs and Administration
- National Business Education Association
- National Commission on Accrediting
- National Council for Accreditation of Teacher Education
- National League for Nursing.

The Honors College

In June 1999, the Board of Regents approved uniting the Honors Program and The Advanced Academy of Georgia into the University System's first Honors College. The Honors College includes The Advanced Academy of Georgia, the Select Student Program, Post-Secondary Option for jointly enrolled high school juniors and seniors, Presidential Scholarships, and all Honors College curriculum and activities.

The Honors College offers challenging courses, stimulating professors, and innovative approaches to learning. The College's small classes feature lively discussion and provide more individual attention than is possible in most courses. Honors College students also enjoy personalized advising and early registration, ensuring them access to appropriate courses and professors. Their official transcripts designate their status together with the special character of the curriculum they have completed.

The Advanced Academy of Georgia provides a bridge for an early transition to college for high school juniors and seniors, nationally and internationally, who qualify and wish to enroll full-time in an enriched residential university program. To qualify, students must score at least 1150 on the SAT with minimum 580 verbal and 530 math scores. They must have earned a 3.5 GPA in academic course work and be on track in the College Preparatory Curriculum and concurrently complete high school graduation requirements.

Student Programs and Services

The State University of West Georgia also complements the academic program of the University by providing a variety of educational services, developmental programs, and student activities designed to enrich the students' college life.

The *Freshman Center* is devoted to the success and welfare of first year and transfer students. The Center is a troubleshooter for any first year or transfer questions and concerns. It offers academic advising and registration for students who are undecided about a major. The Center has programs to help students with study skills, explore information about the various majors offered on campus, and pair up with a peer mentor. By appointment, tutoring for most of the courses in the core curriculum is offered. All services of the Center are free of charge.

The *Minority Achievement Program* is an academic and social support program for minority students. It is designed to support minority students in their transition from high school to college. The Program utilizes minority upper class students who serve as a big brother or big sister to the freshman minority students through the Peer Advising portion of the program. In addition, the Program offers academic and personal consultation services, conducts an Early Intervention Program for students having academic difficulty, and coordinates programs to stimulate academic and cultural growth.

Arts ranging from theatre to opera to exhibitions, West Georgia's fine arts departments offer many opportunities for student performance and cultural enrichment. Both musical and theatrical productions are scheduled year-round. The Concert Choir, Chamber Singers, Marching Band, and Opera Workshop are available to students interested in music. Several areas in the Humanities Building are used for student, faculty, and traveling art exhibits.

The *Office of Student Activities* works in partnership with students to provide programs and services that complement student learning and the academic experience. The Office

provided over 150 individual programs in 1999-2000. The staff coordinates the registration process for nearly 90 student organizations, provides advisement for a Greek system that involves 12 percent of the student population, and coordinates an intramural program that involves 3,500 students each term. The staff advises the Student Government Association, the Black Student Alliance, the Student Activities Council, Black Greek Council, Panhellenic Council, and the Interfraternity Council. The Office also coordinates Black History Month activities, Homecoming, Annual Campus Awards Program, University Volunteer Program, Leadership to Go, Spring Fling, and Welcome Week.

Through an excellent *Intramural Program*, the University provides opportunities for recreation, social contact, and healthy exercise. Over the year, 55,000 participants attend various leisure programs.

Intramural Programs		Amenities
Football	Softball	Weight Room
Basketball	Volleyball	Game Room
Tennis	Aerobics	Swimming Pool
Kick Ball	Ultimate Frisbee	Gymnasium
Paintball	Golf	Fitness Trail
Bowling	Swimming	Olympic Track
Individual Gaming & Sporting Events		

* Vary by Semester

The *University Bookstore* carries all textbooks, materials, and school supplies necessary for students' use in their classes. The Bookstore also offers a wide selection of imprinted merchandise and clothing, as well as office supplies, general books, magazines, computer software, greeting cards, gifts and art supplies. The Bookstore is also a pick-up station for UPS.

The *Student Development Center* provides career, mental health and academic counseling for State University of West Georgia students and support services for disabled, international, and non-traditional students. During the past year, approximately 300 students were seen for personal counseling. More than 1,000 students each year participate in-group and developmental programs offered by Student Development. Five of the six counselors on staff are licensed and hold a specialist or doctoral degree. The Center also provides 260 disabled students with assistance in physical and academic accommodations. Over 100 international students are advised through the Center regarding housing, immigration matters, finances, and personal-cultural adjustment.

The *Department of Health Services* housed in the Student Health Center, includes both an outpatient clinic and infirmary, and is under the supervision of a full-time physician. Nurses are on duty from 8:00 a.m. to 6:00 p.m. Monday through Thursday and 8:00 a.m. to 5:00 p.m. Friday. Students may be admitted to the infirmary for observation and minor illnesses. Students are referred to other medical personnel or facilities for special services such as x-ray, surgery, and dentistry. Medication necessary for treatment is usually available at the Center. In addition, many tests performed in the Health Center laboratory are covered by the student's health fee.

Health Services		
Patient Services	FY 1999	FY 2000
Patient Visits	20,667	20,476
Prescriptions Filled	21,662	24,400
Lab Tests	6,701	11,717

Patients seen by Nurse Practitioners	7,480	8,878
Allergy-Injections / MMR	218	257
Breathing Treatments	239	158
Gynecology	376	482
Minor Surgery	49	142

The *Department of Career Services* conducts activities that support students and alumni in achieving short-term employment needs and long-term career needs. Specific services, which the department offers, include:

- Student Employment (on and off campus part-time, seasonal, and temporary jobs);
- Professional Practice opportunities, including internships and cooperative education (major and/or career related work experience); and
- Career Employment assistance (job listing services, job search seminars, special career events and other services).

Career Services

Resume Referrals	1,643	1,654
Credential Files Mailed	653	507

The *Office of Residence Life* provides on-campus residence hall housing for students. Ten residence halls house approximately 2,300 West Georgia students. Unmarried freshmen that do not reside with parents within a thirty-mile radius of the University are required to live on campus. Many upperclassmen choose to do the same. Some halls are for men or women only. Others are co-educational with separate areas for men and women. Residence halls provide comfortable and attractive surroundings, as well as a community living experience, which fosters the development of disciplined minds, social conscientiousness, and responsibility for governing group affairs. In addition, a variety of social, educational, and recreational programs are provided to promote individual growth and development.

Student Housing			
Residence Hall	Type	Fall 1999	Fall 2000
		Occupancy

Athletics

West Georgia's success in Intercollegiate Athletics is a source of pride for the entire University. West Georgia is a member of NCAA Division II and competes in the 16 member Gulf South Conference. The University fields teams in 10 intercollegiate sports, five each for men and women. UWG has men's teams in football, cross-country, basketball, baseball, and tennis. Women's sports include volleyball, cross-country, basketball, softball, and tennis.

West Georgia's athletic history is a proud one. The Braves' men won the state's first national basketball title (NAIA) in 1974, and West Georgia's women's basketball team reached the national finals only two years later. In 1982, West Georgia captured the NCAA Division III football title, making UWG one of only six schools in the nation to have won a national crown in both football and basketball.

The Braves' success has continued in recent years. During the 1990's, UWG teams have won Gulf South Conference (GSC) Division or league titles in football, men's and women's basketball, baseball, and men's and women's cross-country. Highlights include women's basketball advancing twice to the NCAA Regionals and men's basketball advancing to four NCAA Regionals since 1994. In 1998, West Georgia's baseball team won the GSC and NCAA Regional titles before advancing to the NCAA World Series. Men's and women's cross-country won eight GSC titles in the 1990's, with the men qualifying for the 1998 NCAA Championships. West Georgia's women's cross-country began a new decade by winning the 2000 NCAA Regional and competing in the NCAA Finals. Braves' Football won GSC co-championships in 1997 and 1998. They began their 2000 season by again sharing GSC championship honors before advancing to their fourth NCAA Football Championship playoff since 1995.

The Administration

The Administration

Administrative Organization

The Board of Regents of the University System of Georgia is a State Constitutional Board responsible for governance, control, and management of the University System of Georgia and its member institutions. Board of Regents members, one from each state congressional district and five from the State-at-large, are appointed by the Governor, confirmed by the Senate, and hold office until their successors are appointed. The Chancellor and the Central Office Staff are responsible for administering the affairs of the University System of Georgia under the general direction of the Board of Regents. West Georgia, a unit of the University System of Georgia, operates according to Board policies and procedures.

The President of West Georgia has general responsibility for the institution. The President's Advisory Committee (PAC) is the immediate advisory body to the President. This committee consists of persons in administrative positions reporting directly to the President, and other persons as the President believes will provide advice for the orderly, effective, and efficient administration of the University's affairs. Appointments are annual and made at the beginning of the Fiscal Year.

The Administrative Council is the chief advisory body for administrative activities in the academic operations of the University. Its members are the Vice President for Academic Affairs (Chairman), the Vice President for Student Services & Dean of Students, the Deans of Arts and Sciences, Business, Education, and the Graduate School; the Director of Continuing Education/Public Services; Director of Information Technology Services; the chair of the Institutional Studies and Planning Committee of the Faculty Senate; Director of Libraries; and the President of the Student Government Association.

The Planning Council, an advisory body to the President for long-range University development, oversees a variety of plan activities extending three or more years into the future. The President appoints Council members from the administration, faculty, students, alumni, and the community.

The instruction function of the University is organized into three Colleges and the Department of Continuing Education/Public Services. A dean or director supervises each of these major units. The Colleges of Arts and Sciences, Business, and Education are subdivided into departments, each responsible for instruction relevant to specific academic disciplines. A chairperson is responsible for coordinating the daily operation of each academic department.

Board of Regents

The University System of Georgia's Board of Regents was created in 1931 as a part of a reorganization of Georgia's state government. With this act, public higher education was unified for the first time under a single governing and management authority, which includes all state-operated institutions of higher education in Georgia. These 34 public institutions are located throughout the state.

Members to the Board of Regents, who each serve a seven year term, is appointed by the Governor and subject to confirmation by the State Senate. The 16-member board, five of whom are appointed from the state-at-large, and one from each of the 11 congressional districts governs the University System. The Chairman, Vice Chairman, and other officers of the Board of Regents are elected by the members of the Board. The Chancellor, who is not a Board member, is the chief executive officer of the Board and the chief administrative officer of the University System.

The overall programs and services of the University System are offered through three major components: Instruction, Public Service/Continuing Education, and Research.

INSTRUCTION consists of programs of study leading toward degrees, ranging from the associate (two-year) level to the doctoral level, and certificates. The degree programs range from the traditional liberal arts studies to professional and other highly specialized studies.

CONTINUING EDUCATION/PUBLIC SERVICES consists of non-degree activities, primarily, and special types of college-degree-credit courses. The non-degree activities include short courses, seminars, conferences, and consultative and advisory services in many areas of interest. Typical college-degree-credit courses are those offered through extension center programs and teacher education consortiums.

RESEARCH encompasses scholarly investigations conducted for discovery and application of knowledge. Most of the research is conducted through the universities; however, some of it is conducted through several of the senior colleges. The research investigations cover matters related to the educational objectives of the institutions and to general societal needs.

UWG Organizational Chart

State University of West Georgia Students

UWG Students

The typical State University of West Georgia student:

- enters with an average SAT score of 989.
- is a Caucasian/White female. Sixty-four percent of the student body are female and 75 percent are Caucasian.
- lives within the primary service area of the University. Approximately 89 percent of the student body are from nearby counties, including 14 percent from Carroll County, and 31 percent from metro-Atlanta.
- lives off campus. Seventy-five percent of the student body lives off campus and 25 percent lives in campus dormitories.
- receives financial aid. Sixty-one percent of undergraduate students that apply for financial aid receive some form of financial assistance.
- attends full-time. Eighty-two percent of undergraduates and 18 percent of graduates enroll in a full load of courses. Approximately 69 percent of all students take 12 or more credit hours for undergraduates or 9 or more credit hours for graduates.

UWG Admissions Data

Fall Terms 1991-2000

The Office of Admissions administers the undergraduate admissions policies and procedures of the University, evaluates eligibility of undergraduate applicants for admission and recommends policies governing admission of undergraduates. The Office of Admissions also coordinates a comprehensive

student recruitment program for the University. The Graduate School has its own admissions policies and procedures to admit students into the various degree programs available at West Georgia.

Continuing Education

The Department of Continuing Education and Public Services has emerged as the extension of the traditional on-campus learning process. Non-credit classes are developed and offered to citizens of the University community at convenient locations and with flexible schedules to accommodate a wide variety of participants.

The mission of Continuing Education is to identify and provide non-credit educational opportunities that will enhance the quality of life for local citizens and provide training support to business and industry that will serve as a catalyst for economic development. Over the past 10 years, Continuing Education programs increased 83% to over 600 programs, serving over 12,000 participants. Most of these programs qualify for Continuing Education Unit (CEU) credit.

The CEU is defined as ten contact hours of participation in a qualified continuing education program. The CEU is recognized as the national standard for measuring an individual's participation in a non-credit program. Programs that qualify for CEU credit are referred to as Category I. Category I activities are designed to enhance occupational skills, and individual permanent records as transcripts are maintained. Courses that are designed primarily for personal enrichment and are social, cultural, or recreational in nature are referred to as Category II courses. No permanent individual records or transcripts are maintained for Category II courses.

History of Continuing Education Programs for Fiscal Years 1989-2000 Categories I and II

Off-Campus Programs

Fall 2000

The Board of Regents of the University System of Georgia authorizes West Georgia to offer various off-campus degree and non-degree programs. These include the External Degree Program at Dalton College (which began in 1983), West Georgia Newnan Center, and a joint graduate degree program in cooperation with Columbus State University.

The College of Education administers and offers off-campus, non-degree programs which benefit regional educators by increasing the effectiveness of teacher education practices, policies, programs, and pedagogy for school systems in under-served areas of the State. West Georgia continues to fulfill its regional mission through these programs.

Student Financial Aid

Fall 2000

The Office of Financial Aid coordinates financial assistance for nearly seventy-two percent of West Georgia's students. Office staff determine eligibility for aid awarded by the University and record aid received by students from other sources, such as the State University of West Georgia Foundation, corporations, and

individuals. The Office coordinates all student financial aid awards and reports all aid awarded to students attending the University to the Board of Regents, federal government, and University officials.

Research

Sponsored Operations

History

The State University of West Georgia established a central office to administer sponsored operations in 1967. University reorganization in 1973 placed responsibility for sponsored operations, grants, contracts, budgeting of funds from sources external to the University, and institutional research in the office of Instructional and Research Services. By 1980, that unit became the Division of Budget and Research Services, reporting to the President of the University. In Fiscal Year 1996, Sponsored Operations was placed under the Vice-President for Academic Affairs.

Services Rendered

The Office of Sponsored Operations aids and supports faculty/staff efforts to attract funds from sources external to the University in support of instructional, research, and service programs. This is accomplished by the Director of Sponsored Operations, who: 1) matches faculty/staff interests and needs with appropriate funding sources, 2) routes requests for proposals (RFP's) to specific faculty/department/program personnel, 3) assists faculty/staff in preparing applications and proposals, 4) coordinates award paperwork, documentation, and reporting, and, 5) provides staff development through grants preparation/administration workshops and seminars. The Office of Sponsored Operations provides the day-to-day services necessary to support all program activities funded from sources external to West Georgia and provides support for the administration of the Faculty Research Grant program funded

through the University. The Director of Sponsored Operations recommends all external contracts, proposals, and grants, and monitors institutional performance under such agreements.

West Georgia attracts grants, gifts and contracts from federal, state, and local government agencies, corporations, and foundations. This external funding and other revenue enable the University to fulfill its official mission to emphasize creative teaching, encourage research, and promote the development of human resources through educational programs.

Sponsored Operations Goals

The Sponsored Operations Office established the following strategic goals:

1. To promote and support the instructional, research, and public service missions of West Georgia.
2. To encourage University units and individual faculty/staff efforts in seeking funds from external agencies in support of instructional, research, and public service projects.
3. To monitor the Faculty Research Grant Program in compliance with established institutional policies and procedures.
4. To assist principal investigators in efforts to comply with federal and state statutes and University System policy.
5. To seek increased support for University activities from corporate and foundation sources.

Sponsored Operations Five Year Assessment of Data Reported As of June 30 of Each Fiscal Year

Fiscal Year	Number of Proposals Submitted	Number of Proposals Funded	Amount Requested	Amount Awarded
1995	139	87	\$3,806,716	\$1,412,481
1996	137	88	1,528,332	1,562,455
1997	73	38	2,088,302	962,430
1998	84	47	5,526,760	1,747,570
1999	89	54	10,728,364	2,308,930
2000	68	49	6,471,789	2,521,833

Faculty Research Grants Fiscal Year 2001

In addition to resources acquired from external sources, the University budgets state-allocated funds to assist faculty research efforts through the Faculty Research Grant Program. Established in 1967, the Faculty Research Grant Program provides limited funding for approved faculty research projects.

Each fiscal year, faculty members submit formal proposals to the Learning Resources Committee of the Faculty Senate requesting University support. Committee members evaluate

proposals and make funding recommendations for full Senate review. The Faculty Senate approves proposals and suggests levels of funding to the President, who subsequently allocates funds to the grant recipients.

In compliance with these procedures, the President of the University awarded Faculty Research Grant funds for Fiscal Year 2001 as follows:

College of Arts and Sciences

Dr. Julie Bartley-Geosciences

Sponsored Operations Faculty Research Enhancement Awards FY2001

During FY95, President Beheruz N. Sethna created Sponsored Operations Faculty Research Enhancement Awards to reinvest a portion of indirect cost recovery funds, strengthening the State University of West Georgia's research infrastructure.

The Sponsored Operations Faculty Research Enhancement Awards for FY2001 are as follows:

Award \$	Name / Department	Project Title
\$2,100	Dr. David M. Bush-Geosciences	Quantitative Ranking of Controls on Coastal Storm Impact for Management Use and Internet-Based Distribution
\$750	Dr. Cher C. Chester-Educational Leadership & Professional Studies	Relationships among fluid intelligence, reading ability, and writing ability
\$800	Cathleen Doheny and Jill Mitzell-Curriculum & Instruction	New Faculty and Success in Higher Education
\$3,000	Dr. Florence S. Ferguson-Sociology & Anthropology	"Black and White School Violence: A Special Comparison"
\$2,500	Dr. Randy Kath-Geosciences	Well Water Inventory for Carroll and Haralson Counties, Georgia
\$2,900	Dr. Catalina Luneburg-Geosciences	Rock anisotropies and fabric development in the Conausaga Formation, Southern Appalachians
\$2,000	Dr. Brooks Pearson-Geosciences	Assessing the Accuracy of the Confederate Military Maps of Jedediah Hotchkiss
\$3,000	Dr. Partha S. Ray-Chemistry	Synthesis of a Potential Anti-cancer Agent

Financial Information

Financial Information

The State University of West Georgia operates* under three major budgets: the Resident Instruction Budget, the Auxiliary Enterprises Budget, and the Student Activities Budget. Each serves a distinct purpose.

The Resident Instruction Budget is funded from state appropriations, student tuition and fees, and dedicated funds received from sources external to the University System of Georgia. Resident Instruction Funds support instruction, research, libraries, the computer center and laboratories, Student Services (including the Minority Achievement Program, Student Development, Residence Life, Placement and Cooperative Education, Financial Aid, Admissions, and the Registrar), the administrative and service offices of West Georgia, a portion of the maintenance of the physical plant, and academic scholarships and fellowships.

The Auxiliary Enterprises Budget is self-supporting and is operated on a profit/loss basis. Auxiliary Enterprises generates revenue from residence hall rentals, meal ticket sales, bookstore sales, vending machine sales, student health and athletic fees, refrigerator rentals, parking fees, and parking fines. Auxiliary

Enterprises funds support the operation of the residence halls, dining rooms, the University Bookstore, vending machines, bus service, health services, traffic operations, intercollegiate athletics (as of FY 93); and, they provide funds necessary to maintain a portion of the University's physical plant.

The Student Activities Budget is funded by student activities fees. Student Activities funds support various activities including choral and instrumental organizations, art exhibits, debate team, jazz ensemble, Student Activities Council, University game room, Student Government, University publications such as the West Georgian and Eclectic, and intramural athletics.

In addition to the three budgets, the West Georgia Foundation, Inc., a non-profit corporation dedicated to the advancement of West Georgia, provides funding for scholarships, equipment, and services not funded by state appropriations. The Alumni Association section of the Fact Book supplies additional information about the West Georgia Foundation.

**By State law the period of fiscal operation is the Fiscal Year, beginning July 1 of any year and ending June 30 of the following year.*

<i>Total Student Activities</i>	<i>\$766,117</i>	<i>\$99,200</i>	<i>\$108,625</i>	<i>\$555,292</i>	<i>\$3,000</i>

(a) Costs of operating and maintaining the University's physical plant are divided between the Resident Instruction Budget and the Auxiliary Enterprises Budget. The distribution of costs is based upon the square footage of the physical plant occupied by cost centers in each budget. These costs are budgeted as Operation and Maintenance of Plant in the Resident Instruction Budget and Indirect Operating Expenses in the Auxiliary Enterprises Budget.

(b) The Lapse Estimate is a budgeted estimate of the amount of funds that may be transferred from personal services to non-personal services during a fiscal year.

(c) The Equipment Replacement Reserve is required by the Board of Regents and is based on a 5% of Auxiliary Enterprises Revenue except for Student Transportation Revenue.

(d) The Unassigned Balance represents a contingency fund reserved to provide for unexpected expenditures.

Note: Information is subject to audit.

West Georgia Foundation and Development and Alumni Services

State University of West Georgia Foundation

The State University of West Georgia Foundation, Inc. (Foundation), is a Georgia charitable corporation. It receives and manages private contributions (gifts) made for the benefit of the State University of West Georgia. The Foundation has been recognized as an organization exempt from Federal Income Tax under section 501(c)(3) of the Internal Revenue Code, and gifts to the Foundation are deductible as provided for in section 170 of the Internal Revenue Code. The Foundation encourages both restricted (specific purpose) and unrestricted (general use) gifts from donors.

The purpose of the Foundation is to promote the cause of higher education within the State of Georgia, to source and receive gifts for the support and enhancement of the University, and to aid the University in its development as a leading educational institution within the state of Georgia and the southeast region of the United States.

The Foundation's Board of Trustees is composed of business, professional, and community leaders plus officers elected by

the Board. The Board establishes and provides oversight of the Foundation's operating financial policies and procedures. In addition, the Foundation is committed to provide for the integrity of original corpus (principal) dollars plus assure that all fiduciary commitments made to the Foundation's donors are honored for the life of their agreements. The officers and trustees of the Foundation are committed to a policy of full-disclosure.

The Board of Regents of the University System has recognized that gifts and income from endowments that provide for the private support of system institutions are not taken into account when determining the allocation of state funds to the institution. The Board of Regents recognizes that all of its institutions are dependent, in part, on private funding and encourages all of its institutions to seek the support of alumni, friends, corporations, and other private organizations.

UWG Alumni Association

The alumni of the State University of West Georgia constitute its largest single constituency and represent its most valuable resource for the University. Membership in the Alumni Association is open to all graduates of the State University of West Georgia, West Georgia College, or the Fourth District Agricultural and Mechanical School. A 36-member Board of Directors, along with several lifetime members, directs activities of the Association. The Association informs alumni of institutional plans, progress, opportunities, and needs.

Perspective, the alumni publication, is mailed to all alumni and friends three times a year. The spring issue includes the Honor Roll of Giving and is presented in a magazine format.

The UWG Alumni Association also communicates to its constituents electronically through the On-Line Community (OLC). This web site features bulletin boards, events calendar, and the ever-popular online directory where alumni can research and find former classmates and friends. There is also a career center and "yellow page" listings for alumni businesses.

Major activities sponsored by the Alumni Association include Homecoming (fall), Alumni Week (spring), annual meeting of the Fourth District A&M School, as well as numerous reunions and special events that involve hundreds of alumni each year.

2000 - 2001 Officers

Doyle R. Akins '62, President
Dr. I. Bradford Lipham '91, President-Elect
Rodney P. Smith '87, Vice President
Christy H. Sammon '90, Treasurer
H. Frank Pritchett '88, Secretary
Mignon Y. Carter '86, Past President

Facilities and Grounds

Facilities & Grounds

State University of West Georgia's Department of Facilities and Grounds consists of the Office of the Director, Department of Facilities Maintenance, Department of Facilities Engineering, Department of Motorpool Services, Department of Custodial Services, and Department of Landscaping and Grounds Maintenance. The mission is to maintain a safe, comfortable, and aesthetically pleasing environment conducive to teaching, research, and student life.

West Georgia's campus is considered to be one of the most beautiful in the University System of Georgia. The Landscaping and Grounds staff continue a long tradition of systematic landscaping that began in 1919 when Fourth District A&M School Principal, John H. Melson, solicited gifts of trees from each of the then forty-eight states for transplantation to the school campus. West Georgia landscapers care for the many plant species residing on the almost 400 acre campus. They also construct and maintain irrigation systems, curbs, gutters, sidewalks, and athletic fields. A University nursery cultivates plants for seasonal, new, or replacement landscaping.

The Department of Custodial Service staff helps to cultivate a wholesome environment for students, faculty, and staff by

cleaning office areas and cleaning residence halls. The department is also responsible for setup and breakdown of events such as football games and student orientation. Displaying an ongoing and pleasing attitude to our customers, our staff is always willing to address any needs or concerns they may have at any given time seven days a week.

A safe, comfortable, and appealing environment for our students, faculty, and staff is the goal of the Department of Facilities Maintenance. This service is provided through diligent efforts from both our work information center and our skilled tradespeople. The function of repair and routine maintenance, as energy management, and special projects are scheduled, performed, and managed for the more than 1.6 million square feet of building floor space.

Campus Planning and Development provides expertise for all planned works. The department has architectural, engineering, and drafting capabilities within the design group. The department also acts as project managers for contracted work, which happens often due to the scope of work involved and/or the time constraints imposed by the priority level of a project.

Information Resources and Technologies

Irvine Sullivan Ingram Library

The Library is one of the most important learning centers on any campus. West Georgia's Irvine Sullivan Ingram Library is one of the most advanced library facilities in the state of Georgia. The four-story structure provides more than 85,000 square feet of usable research/storage areas and over 1,000 seating spaces for students and faculty.

The Library contains seminar and conference rooms, lockable faculty carrels, hundreds of individual study carrels, facilities and equipment for microform reading and copying, the Annie Belle Weaver Special Collections, large areas for reference, periodical materials, maps, and the circulating book collection. Audio and video cassette players, and photocopiers are also available to assist students and faculty with their study and research needs.

Fifty-five percent of the Ingram Library staff are professional librarians, they hold (at-least) accredited graduate library degrees and faculty rank. The remainder of the staff meets particular degree qualifications, has specialized job skills, and receives specific training.

The Irvine Sullivan Ingram Library presently houses approximately 360,696 bound volumes, 23,526 reels of microfilms, a limited audiovisual collection and more than 1,040,266 pieces of microform as well as 19,179 maps and charts and 31,278 volumes/pieces of special collection material. The Library currently subscribes to over 1,352 magazines and newspapers. It is also the Sixth Congressional District selective depository for more than 216,785 United States government publications.

The Library's participation in the University System of Georgia's Georgia Interconnected Libraries (GIL) provides automated services for its patrons. Acquisitions, cataloging, circulation, reserves, interlibrary loans, government documents, serials, and special collections are available through the Library's homepage and the on-line public access catalog (OPAC)). The Library's homepage contains an electronic suggestion board, and all patrons are encouraged to provide input to the library. The Library's catalog and homepage is available to anyone with internet service. The University's Newnan and Dalton Centers have full access to Ingram Library's OPAC.

Ingram Library is aggressive in extending its patrons' access beyond local holdings. Through the University's network, patrons have access to Library holdings, University System resources, and Internet resources. Through PEACHNET library users - students, faculty, or the general public - have access to Georgia Library Learning Online (GALILEO) which includes the catalogs of all system libraries and full-text journal and encyclopedia databases. Students and faculty can be issued Joint Borrowers' Cards allowing them circulation privileges at the other thirty-three University System of Georgia libraries. The Library also provides access to the research libraries of the Atlanta area through West Georgia's membership in the Atlanta Regional Consortium for Higher Education (ARCHE). For students or faculty who require additional materials, electronic generation and transmission of interlibrary loans expedites this process considerably.

The Library pursues an aggressive instructional program by offering a for-credit course in a computer-enhanced classroom or via the internet, orientation presentations, and customized instruction on library resources for upper-division courses.

Off-campus Library Services ensures that students enrolled in courses at any of the University's remote class sites, or from their homes receive the same level of library support as those at the Carrollton campus. In addition to remote computer access, off-campus services maintain toll-free telephone services for direct consultation with a professional librarian. Standard services include selection of materials and free delivery to either the students' home or to one of the University's full-time program locations at Dalton or Newnan. Fax and courier services provide timely delivery to these sites. Reserve reading materials can be transferred to a library near the class site and Joint Borrowers' Cards are routinely issued to off-campus students.

Selective statistics descriptive of Library activities and services for the past ten years are provided in the table below.

Information Technology Services

Information Technology Services (ITS) provides technology leadership and support to all areas of the State University of West Georgia community. ITS offers a wide variety of services – from user assistance and training to planning and maintaining the campus-wide network. Providing this range of services makes its role a very challenging one. To successfully meet the challenge, ITS is continually upgrading services and equipment which are available to the campus community.

Information Technology Services maintains and supports the central Sun Microsystems Unix servers for the campus, including a cluster of Sun servers which provide e-mail accounts and web pages for all students, faculty, and staff, and a Sun 4500 which supports the Banner Student Information System. ITS also support, approximately 25 NT and Linux file servers, serving both the academic and administrative communities.

ITS manages the campus' administrative and residence hall data and telephone networks. High speed Internet access from the State University of West Georgia campus is provided through a link to PeachNet operated by the University System of Georgia.

Student microcomputer labs are located in the College of Business, the College of Arts and Sciences, the College of Education and the University Community Center. Many of these labs are used for instruction; however, the Community Center computer lab is open for general use. The individual Colleges primarily handle support for their respective student computer labs.

Information Technology Services provides end-user technical support for the most recent versions of general microcomputer software used by the faculty, administrative offices, and students. Individual college technical support staff may support other specialized software.

Department of Learning Resources

The Department of Learning Resources, which is part of Information Technology Services, provides faculty and students with instructional technology for classroom use and assistance with instructional design. Learning Resources stocks and maintains a wide-ranging inventory of audio-visual technology from slide projectors, camcorders, overheads to DVD players, and LCD projectors. It is also responsible for installation and maintenance of technology permanently placed in classrooms such as TV/VCRs, overhead projectors, and multimedia equipment. The Learning Resource Center assists in training faculty and staff in the use of instructional technology.

Creation of visual aids for the classroom such as color slides, overhead transparencies, computer generated slides, and on-screen presentations are important services of Learning Resources. The Instructional Resources area scans photos and slides, digitizes video, converts photos into slides as well as provides darkroom services such as printing black and white photographs and developing Ektachrome slides. Other production services such as lamination, black and white transparencies, and VHS tape dubbing are also available.

Learning Resources is located on the ground floor of the Learning Resources/Geography Building across from the Library on Back Campus Drive. Learning Resources professional staff members hold advanced degrees from accredited institutions and have extensive experience in instructional technology and design.

Institutional Research and Planning

Institutional Research and Planning

Mission

The State University of West Georgia's strong commitment to "Educational Excellence in a Personal Environment" is central to the mission of the Office of Institutional Research and Planning. The Office has, as its primary mission, the collection of data (from both internal and external sources), and the timely analysis, distribution, and presentation of this information for use in planning, decision-making, and policy formulation at the University.

The Office is also responsible for ensuring the accuracy of vital University statistics, and for reporting these data to a broad spectrum of information consumers including regulatory entities, management, faculty, private organizations, and the general public. A major function of the Office is to respond to diverse requests for data from members of the University community, and to assist it with research and assessment methodology, evaluation, and analysis.

Institutional Research and Planning further serves as records custodian for the State University of West Georgia. In this capacity promotes the efficient administration and management of State governmental records in compliance with the Georgia Records Act and the Georgia Open Records Act. Institutional Research and Planning advises departments of appropriate records-keeping techniques and systems, and guides in development records retention schedules.

Institutional Research and Planning at the State University of West Georgia

The Department of Institutional Research and Planning was established in 1967 at West Georgia. Through studies at regularly planned intervals, IRP explores University culture by investigating campus community norms and values. Research findings aid the administration in determining if and to what extent values are in conflict and provide a basis for policy analysis and identifying potential problems. In the early 1980's, West Georgia was the first University System of Georgia institution to conduct institutional retention studies. Retention studies indicate causes for attrition, and such studies analyze retention-attrition behavior and provide bases for policy analysis, alternative admissions criteria, and enrollment planning.

Institutional Research assists the University focus its programs on specific student needs. Institutional Research responses to the needs include studies which evaluate academic advising, counseling, career planning and placement, intercollegiate athletics, health services, and housing. Institutional Research contributes to planning in the development of specific programs through market research techniques and needs assessment, and supports program review by supplying qualitative and quantitative evidence for assessment activities.

Institutional Research supports University development efforts through providing institutional information for external

fund raising projects, conducting case studies for use in fund drives, and providing information necessary for data-based development strategies. Institutional Research techniques routinely provide evidence which development efforts may utilize to assess their own effectiveness and to consider the viability of new development strategies.

Institutional Research Goals

The Department of Institutional Research adopted the following goals to encourage institutional effectiveness and to foster mechanisms to assess results:

- Serve the executive functions of the institution by providing a reliable and proactive management and decision - support system.
- Promote the improvement of West Georgia's planning process in compliance with Board of Regents Policy and the Southern Association of Colleges and Schools Criteria.
- Generate data, information, and analytical reports on institutional research topics designed to improve information usage in the planning process utilized at the University.
- Assist the executive and administrative officers of the University in institutional assessment in order to promote increased institutional effectiveness.
- Provide systematic collection and reporting of standard institutional, regional, environmental, and student-centered information for institutional planning and assessment.
- Reply in a punctual manner to spontaneous requests for descriptive information, data, and analytical reports.
- Provide guidelines and standards to the various departments for the establishment and continued maintenance of successful individual records management programs that meet compliance with the Georgia Records Act and the Open Records Act.

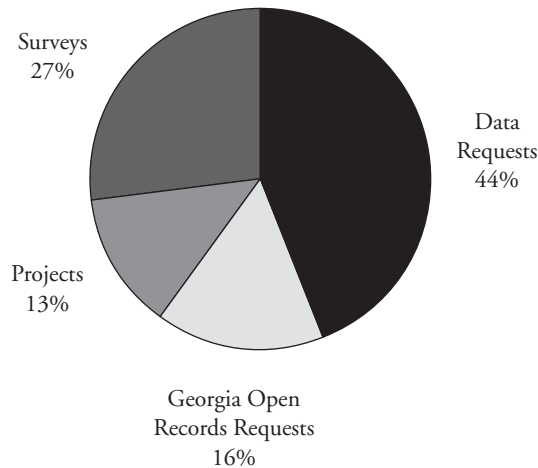

Major Projects

The Department of Institutional Research conducts various studies relative to:

- Entering Student Study (annually)
- Continuing Student Study
- Former Student Study (Withdrawing/Non-Returning Student Study)
- Student Needs Assessment
- Student Satisfaction Survey
- Recent and Long-term Alumni Studies (annually)
- Adult Learner Needs Assessment Study
- and Outcomes Assessment Study.

The Institutional Research unit designed this series to measure student educational outcomes and institutional effectiveness as well as provide vital information and data to support the University's planning processes.

Institutional Research and Planning Completed Requests Fiscal Year 2000

Institutional Research and Planning responds with information and analyses. The unit completes several projects, including the:

University System's required Request for Proposed Enrollment Plans

- Institution's Comprehensive Plan
- Annual SACS Institutional Update
- Annual Report of Institutional Progress
- NCAA Enrollment and Persistence-Rates Disclosure Report
- U.S. Department of Education's IPEDS Reports
- Institution's Affirmative Action report
- Study of the Perceptions of West Georgia
- University Printed Fact book
- University On-line Fact book (www.westga.edu/~instrsch)

The Institutional Research unit continued to provide assistance to various departments and committees regarding preparation for re-accreditation by:

- National Association of Colleges of Teacher Education
- National Association of Schools of Music

American Assembly of Collegiate Schools of Business
National League of Nursing.

Department staff remains active in their professional fields, attending several state and national conferences, and participating in several workshops. Staff made presentations at professional meetings and was active participants in a number of sessions.

The unit collected, analyzed, and reported data and information relative to this institution and University System's enrollment, graduation rates, course taking behavior, academic achievement, persistence rates, Regent's Test scores, declared majors and degrees conferred. Other efforts to perpetuate thoughtful planning include production of annual department fact sheets, and the annual Fact Book. The unit responded to many requests for data pertaining to enrollment, student demographics, academic program statistics, and general environmental indicators, with a third of inquiries attributable to the executive function.
